LOCAL IT FIRM, TITLE COMPANY AND NON-PROFIT GET CHILDREN READY FOR THE UPCOMING SCHOOL YEAR BY RAISING DONATIONS

Robertsdale, AL (August 11, 2020) – BIS Technology Group (BIS), the leading technology provider and digital marketing firm on the Gulf Coast, partnered with a local, hands-on ministry to help families in need prepare their kids for the upcoming school year. Light of the City provides tutoring, enrichment and summer camp for children in the Bay Minette area.

In July, BIS held a back to school drive along with Gulf Shores Title Company to raise donations for program participants from Light of the City. Recently, those children and families were able to pick up all the supplies needed for the 2020-2021 school year.

"Light of the City is doing so many great things for the Bay Minette community," said Phillip Long, CEO of BIS Technology Group. "Children are the future and they're doing everything they can to make sure they reach their full potential. From providing summer camp to after school programs, Light of the City really makes these kids a priority. We are so excited that we had the chance to partner with such an amazing organization and really give back to our community."

In the future, BIS has plans to stay involved with Light of the City through their assistant site director, Joshua Brown, who is also the sales and marketing consultant at BIS. Long interviewed Barbara Brown, site director at Light of the City, for his podcast show *Success Failed* where they discussed the non-profit and how to help the local community. You can listen to the podcast here: www.askbis.com/bis-podcast

BIS Technology Group recognizes Gulf Shores Title Company for their contributions to the cause. For more information about Gulf Shores Title Company, visit <https://www.gulfshoreshortitle.com/>.
